

FAST, FASTER, SOUNDCADDY ONE!

No other PA sets up and is ready to go in such a short time.

Our engineers packed everything you need in a portable PA into this remarkably convenient and elegant 'caddy.' And transporting it from A and B on its built-in wheels is an exercise in speed and convenience.

SOUNDCADDY ONE not only sets up in mere seconds. As a genuine HK AUDIO product, it sounds as good as it handles. You get exactly what you expect from HK AUDIO – high-quality sound that is sure to satisfy.

Ready for Anything!

SOUNDCADDY ONE offers a bevy of connection options. The integrated mixing console accepts up to four signal sources simultaneously - a microphone, guitar, MP3 player, and more.

The built-in mid-/high-range unit offers all the superior benefits of a line array for your entire audience to enjoy. Your message comes across loud and clear from the front row to the back.

SOUNDCADDY ONE is loaded with three 6" woofers engineered specifically for the world's fastest PA. Paired with a 600-watt Class-D power amp, they deliver an audio experience that never ceases to amaze and impress.

The piece de resistance is a mid-/high-range unit that retracts into the sub for easy transport. A flick of the wrist is all it takes to extend the unit, and another quick twist aligns it to the audience.

Always Geared Up to Go!

This sound reinforcement solution gets the job done in schools and public services lacking a permanently installed PA. It's also a great choice for exhibitions, fashion shows, car dealerships, churches, and conferences.

And SOUNDCADDY ONE is the perfect sidekick for all one-man/woman bands and entertainer duos.
