

PRIMO

2 channel controller and mixer with standalone effects for Serato Dj

TECHNICAL details

- 2ch Controller for SERATO® DJ
- Performance Pads with Hot Cues, Roll, Slicer, Sampler
- Sturdy build quality with Brushed aluminum face plate
- Built-in sound card for simple USB connectivity
- 100mm Pitch Control
- USB powered

The Mixars PRIMO is the ultimate plug-and-play 2 Channel controller and Mixer for SERATO DJ with exclusive standalone effect section on each channel.

The PRIMO's new, exclusive and dedicated Effect control on each channel features Filter, Noise, Crush, Gate, delivering to DJs the most amazing sound in SERATO DJ both in standalone mode and when using PRIMO as a mixer.

The PRIMO's comprehensive, complete mixer allows DJ's to access line & phono inputs as well as an Auxiliary input in the front Panel with dedicated volume control, switchable in to a Combo Input Microphone with independent Tone control and Mic Echo.

It has 16 RGB backlit pads on board for triggering Cue points, Roll, Slicer or Serato Sampler and has a Key Sync button to instantly Sync matching musical keys.

The Mixars PRIMO includes SERATO DJ full version. IN addition, the PRIMO is Serato DVS Upgrade Ready. Advanced users can custom map most controls to many other third-party audio software or remap controls in SERATO DJ.
